

Student Name: _____

Animals of the Riparian Habitat Zones

1. Circle your group's zone:

Stream Understory Canopy

2. As a group, find the animals that live in your group's riparian habitat zone. Place those animals in a stack together.

3. Choose one animal from the stack. Write its name below:

4. Read your animal's card to yourself. Answer the questions:

What does it eat?

Where does it make a nest?

Write one fact you learned about your animal:
